CIRCULAR LETTER #14/05

TO: BARBERING, COSMETOLOGY AND ELECTROLOGY SCHOOLS

SUBJECT: EQUIPMENT FOR SCHOOLS

The Board of Barbering and Cosmetology recently revised its minimum equipment requirements for schools.

For many years, Section 940 of the California Code of Regulations (CCR) has defined minimum equipment requirements for cosmetology schools, but not for barbering and electrology schools, for which the Board offered only recommendations.

This regulatory change now includes minimum equipment requirements for all schools that teach barbering and cosmetology skills. The new requirements went into effect on July 1, 2014. Please find enclosed a copy of the new regulations as well as equipment checklists for each type of school.

Sincerely,

Kristy Underwood
Executive Officer
