

## CONSUMER NOTICE

The establishment you are receiving services at is being inspected by the State Board of Barbering and Cosmetology. State inspectors are required to inspect the entire salon for violations of State laws and regulations. Consumer protection is the State's highest priority and the Board must ensure proper health and safety guidelines are being followed. State inspectors will do their best not to interrupt your service; however, the inspector is tasked to complete the following:

- **Inspect all drawers, containers, storage areas etc.**
- **Inspect all rooms located in an establishment.**
- **Inspect all work areas and equipment.**

The inspector prepares an inspection report and notes violations found and the establishment may face administrative fines. For more information please contact the Board at (800) 952-5210 or at [www.barbercosmo.ca.gov](http://www.barbercosmo.ca.gov).
